## TOP 3 REASONS TO TRY PRIVATE LESSONS

1. You get one on one instruction to work with the trainer of your choice, to better anything you'd like, wheter your combinations, your low kicks or even pad work. Its totally up to you!!
2. You get the privacy and convenience to work at your own *pace* and your own convenient times.
3. Its a great alternative to the class scheduled training, for you to

gain an extra personal advantage in a safe training environment.
